are actually reviewed in this book. Really only the big ones, and you will find them anyway. Wish I'd skipped this book and just gone with the free guides for the area. I feel like money was wasted that, as the author says in more than one spot, I could have spent on shopping!

I expected an guidebook with honest reviews. What I received was more of a Chamber of Commerce press release. The sites that were reviewed, and they were painfully few, all were 'great', 'not to be missed'. etc. Extremely disappointed in the product.

It's really a challenge to pick a book about an area when you're going someplace you've never been. The choices are overwhelming! I picked this book and am very happy with it. It's very informative and hopefully will lead us to some excellent vacation activities when we spend Thanksgiving in Gatlinburg and Pigeon Forge.
