Joseph P. Farrell : Genes, Giants, Monsters, and Men: The Surviving Elites of the Cosmic War and Their Hidden Agenda before purchasing it in order to gage whether or not it would be worth my time, and all praised Genes, Giants, Monsters, and Men: The Surviving Elites of the Cosmic War and Their Hidden Agenda:

2 of 2 people found the following review helpful. Fascinating and slightly disturbing ideasBy JesseRead Asiatic forefathers of North America by Herndon Harris to get a more grounded interpretation of the Meso-North American data. On the idea of a destruction of a planet in our solar system Catastrophism and the Old Testament: The Mars Earth Conflicts posits a more recent occurrence. Overall I enjoyed the out-of-the-box thinking and the presentation of this book. p.s. see connections between Babylonian Sarrush, Quetzcoatl and the ancient Chinese Long. 0 of 0 people found the following review helpful. Excellent read. By halanrose Excellent book with great detail supporting its premise. If you agree with the hidden history concept you will like this book. 0 of 0 people found the following review helpful. Stir your mind... By Chaan Beard Outstanding research and writing style. Very thought provoking and slides in with my own research and findings.

Consider the possibility that the history of the human race is not as simple as what has been taught in classroom textbooks. Consider the possibility that the evolutionary scientific explanation for mankind has ignored critical facts that are buried deep within the fossils and mankind's DNA. Consider the possibility that the religious stories that have often been the core basis for mankind's understanding of where it belongs in the history of creation may actually reveal a planet occupied with tyrannical giants and an elite highly intelligent race bent on genetic mutation. As horrifying as such possibilities are, Genes, Giants, Monsters, and Men sets forth a plausible theory revealing a hidden history of mankind and a possible reason that it has remained veiled for hundreds of thousands of years. With his well-documented style and breathtaking conclusions, Dr. Joseph P. Farrell pulls back the veil and takes the reader on an odyssey behind the mysterious history and myths of the human race. Joseph P. Farrell is a recognized scholar whose credentials include a PhD in philosophy from the University of Oxford. His literary contribution is a veritable resumé unto itself covering such fields as Nazi Germany, sacred literature, physics, finances, the Giza pyramids, and music theory. A renowned researcher with an eye to assimilate a tremendous amount of background material, Farrell is able to condense the best scholastic research in publication and draw insightful new conclusions on complex and controversial subjects.

About the Author Joseph P. Farrell is a recognized scholar whose credentials include a Doctor of Philosophy degree from the University of Oxford. His literary contribution is a veritable resumé unto itself covering such fields as Nazi Germany, Sacred Literature, physics, finances, the Giza pyramids, and music theory.
