National Geographic Maps : Georgia (National Geographic Guide Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Georgia (National Geographic Guide Map):

2 of 2 people found the following review helpful. Did not keep itBy greenfleaThis map has some interesting information on it, but is not terribly useful as a roadmap. There is not nearly enough detail for it to serve as a roadmap, which is why I returned it. If, however, I had been looking for a broadbrush overview of the state, this might have been okay. A large print roadmap is more useful for me than this guide map..

Waterproof Tear-Resistant Travel MapNational Geographic's Georgia Guide Map provides travelers with the perfect combination of detail and perspective in a highly functional travel tool. A handy combination of map and guidebook, this map is loaded with information on historical, cultural, recreational, and ecological attractions. Cities and towns are easy to locate with the map's helpful index. Hundreds of points of interest are shown, along with national and state parks, public campsites, visitor information centers, airports, and hospitals. A complete road network of highways, tollways, and other roads, along with distances noted in miles for major highways, will help you find the route that's right for you.Inset maps of Atlanta, Athens, Augusta, Albany, Savannah, Brunswick-Jekyll Island, Macon, and Columbus provide greater detail of these urban centers. The Okefenokee National Wildlife Refuge and Swamp Park is highlighted, as is the Sea Islands scenic drive from Savannah to Jekyll Island. Whether your travels in Georgia bring you to its cities or its most remote wilderness areas, you'll find this map to be an invaluable tool for exploring the largest state east of the Mississippi.Every State Guide Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of any kind of travel.Map Scale = 1:1,314,000Sheet Size = 17.75" x 24.75"Folded Size = 4" x 8.75"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
