Kenneth Jessen : Ghost Towns, Colorado Style Volume Two: Central Region (updated edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ghost Towns, Colorado Style Volume Two: Central Region (updated edition):

4 of 4 people found the following review helpful. Dennis P Hobbs Love this series of Books!By Dianne HobbsI own

all three of Mr. Jessen's books about Colorado ghost towns. Each is comprehensive and thorough when describing the history of the individual towns. I am amazed that this history is so complete. I lived in Summit County for 6 years and used it as my base to travel to many of the towns mentioned in Mr Jessen's books. Some of these town sites are sparse, barren or long forgotten. How Mr Jessen was able to reconstruct their history is amazing to me. Thank God for historians like Mr Jessen for taking the time to write the history of these long forgotten pioneers and the places they called home. There are so many stories in these volumes that I keep them handy and read and re-read the stories over and over again. My particular favorite stories are those recounting the adventures of the colorful individuals who populated these towns back in the day! It always reminds me that we are not so different than our forefathers, we just have better technology!⁹ of 9 people found the following review helpful. So many Ghost towns all around me and I didn't know. By Quinbould I live in the heart of Ghost town country. I knew about some of them, but the place is rotten with them; and this book located these bits of bygone history for me. Even my old office building sits on the bones of an old ghost town I'd never heard of. If you love Colorado (and you should) and history and adventure and beautiful back country driving and hiking, this book is the one you want. Buy it and carry it with you. I've seen others and this is by far the most complete and up to date. -P-0 of 0 people found the following review helpful. more money more By michael Give me your money, now that is how I felt just reading the book

The second volume of Ghost Towns, Colorado Style is filled with over 230 historic and contemporary photos from the central region of the Colorado Rockies. Organized into six geographic areas, this book of fascinating history is easy to use and fun to read. It covers over 250 town histories from Chaffee, Eagle, Garfield, Gunnison, Lake, Park, Pitkin and Teller counties. To guide readers to various sites, Jessen also provides 80 detailed maps and helpful directions.

About the Author Kenneth Jessen is author of 11 books and several booklets plus nearly 700 articles on Colorado history.
