It was fine and we will put it on the coffee tableBy SLHIIt was fine and we will put it on the coffee table, but I was looking for something a bit more detailed. I had visions of the kids going on a ghost hunt when they got bored at the lake, unfortunately there were only a few stories. I guess the authors

did the best they could with what they had to work with :-)

By Laurie J Minichiello Was disappointed that this book has very little information regarding haunted areas in the Lakes Region. Much of it is from so-called haunted sites on the seacoast, not the Lakes Region. There is very little written about the actual investigations done but rather background information on each site including newspaper articles. The book is well written, just didn't give the detailed information I was hoping for.

Travel with renowned demonologist Katie Boyd and psychic medium Beckah Boyd as they traverse the Lakes Region of New Hampshire in search of the supernatural. Experience the mysteries of the Granite State's paranormal hot spots, from the maritime specters of Portsmouth and haunted inns and taverns of Laconia to the spirited mills of Dover. Part case report and part history, this book will keep readers in suspense as often as it will spark laughter not all spirits are dark and sinister. Along with the investigating duo's favorite stories of unexplained phenomena comes a hair-raising interview with television celebrity host hunter and New Englander Shannon Sylvia.
