It shows maps, trails and roads used in that era. Some of those trails and roads are still being used. Old towns that sprang up during that time may still be standing and this book will show you how to get there, what to see and do.Names of towns like Strawberry Hill, Copperpolis or Fiddle Town are still around. Some towns have Frog jumping contests or Fiddle playing contests.This book is a gold mine in itself!2 of 2 people found the following review helpful. Gold Rush CountryBy Christy T.I first read this book ten years ago while on a trip in Sonora and the surrounding Gold Country. The book pointed me in the right direction as to where to visit and what to see. Since then I have been back to the Gold County several times and always take my Sunset book with me. This book tells you the history and stories behind all the towns and sites waiting to be explored. This is a top rate book that is a must have travel companion to the Gold Country.

The event that first focused on California the rapt attention of the rest of the world was, of course, Jim Marshall's find of a few gold flakes in the American River next to Captain Sutter's new saw mill. What happened in the next half dozen years forms one of the most dramatic chapters in the nation's history.
