Excellent book with many awesome rides.By A CustomerThis book is laid out well with concise and accurate information about many wonderful mountain bike trails. The rating system, general description and mile by mile directions are very good. The only reasons I don't give it five stars is that the trail

names in the book don't always match the trail names on sign posts (we got lost). Maybe they've changed the signs since the book was published. Also, the grid indicating elevation gain is a bit misleading. You can't compare one ride to another using their grid system. We used this book for 4 different trails in Sun Valley and one near Stanley and really had fun. Believe them when they classify a couple rides as "abusive". 1 of 2 people found the following review helpful. Outrageous!!!!!!By A CustomerThis guidebook sets the standard for other guidebook authors to follow. Clear, concise and accurate information at your fingertips! Good Dirt rocks! 0 of 2 people found the following review helpful. Finally, a great accurate guidebook for the Sun Valley areaBy A CustomerHands down, one of the best guidebooks I've had the pleasure to read cover to cover. I truly couldn't put it down. Thank you McRoberts'.
