By Kerrip I am a competitor in the Dog boarding business of Cindy Hill's company. I frequently refer special needs clients to her facility as well as those that don't meet our requirements. This is an excellent primer to the dog boarding choices that are now available Nation wide. My only regret is that I didn't think to publish a similar manuscript first. I read it in one sitting and am thoroughly impressed. Way to go Cindy, great job! 1 of 1 people found the following review helpful. Extremely thorough and useful By Steve Sipress Cindy Hill is obviously an extremely passionate, knowledgeable expert on this subject. This book almost makes me think she cares and loves pet owners as much as she does her own family and pets. (\*I said "almost"! My beautiful wife Michele and I often travel separately (I read this book while staying alone in a hotel room in San Diego for a week on a business/pleasure trip, while Michele chose to stay back home in -15 wind chill Chicago just to stay with our beloved, rambunctious, grey-haired, deaf, somewhat-lame cocker spaniel Emanuel). I was barely into this book when I already called Michele and couldn't contain my enthusiasm about all of the great advice Cindy gives. She raises so many questions, concerns and "things to look for and to avoid" for every one of a number of available options that we never even thought of - nor ever would have - on our own. We've tried all kinds of options over the past 10+ years since rescuing our doggie from a shelter, from traveling separately, having a pet sitter stay at our home, having a neighbor come over to feed and walk the dog, leaving him with a "dog lover" professional and driving over two hours each way to leave our doggie with Michele's parents -- but we haven't been completely happy with any of these situations. Michele and I will have a long, detailed discussion when I get home, referring to this book the whole time, about what to do with our doggie the next time we want to get out of absurdly-cold and snowy Chicago to a warmer winter destination. Thank you, Cindy! I could not more highly recommend a book to anyone who loves to travel and also loves your dog. 1 of 1 people found the following review helpful. Every dog owner should read this book By Heather This is a quick read and a wonderful reference guide for dog owners. I always hesitated to travel or leave my dogs at a kennel. This book helped me change my perspective and gave me tools to feel great about where I left my dogs. Cindy teaches you how it is good for both you and your dogs to take breaks and enjoy your vacation. I have followed the tips in this book and my dogs are definitely better for it when I travel. It also helps you to know that you have chosen well when leaving your loved ones in another's care. Thanks so much Cindy for this guide.
