Warnock The imaginative and creative partnership of poet Thomas Scruggs and photographer Scott Woods has produced an incredible little book that at once touches the deepest, secret, and most intimate heart of the West, as well as its grandest most sweeping vistas. Count on being deeply moved by these poems and photographs, be you native to his area, reading from afar, or first time visitor to Northern Arizona. I look forward with relish to future collaborations between this sensitive, articulate poet and visionary photographer. 0 of 0 people found the following review helpful.
