VARIOUS : Grand Canyon - Spanish (RNP) (Spanish Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Grand Canyon - Spanish (RNP) (Spanish Edition):

It is a beautiful book, both the story and excellent photography. It gives a very good description of the canyon, the archeology, the history. A very good book to read, in any language, to prepare for a trip to the canyon. Or, if one cannot go, this is the next best thing! My only complaint is that it was very difficult to find on . I searched for it in Spanish using "Gran Cañón" and this particular book wasn't there. So I do hope it is made more accessible using the Spanish title. Now I must order my own copy since I gave this one away! Well worth the money, even for two of them!

Stunning photographs illustrate the Grand Canyon from rim to river. Look out over panoramic vistas from the South Rim and North Rim, and descend into the depths of the inner canyon, where the Colorado River flows past walls of rock that tell a geologic story billions of years in the making.
