Bill Kaysing, Ruth Kaysing : Great Hot Springs of the West before purchasing it in order to gage whether or not it would be worth my time, and all praised Great Hot Springs of the West:

0 of 1 people found the following review helpful. AwesomeBy Gene R. JohnsonAwesome book. Very good shape, good price And I didn't have to leave home! Quick shipping too.Thanx, Gene10 of 13 people found the following review helpful. Interesting especially for RVers who like hot tubbingBy A CustomerWe have tried one hot spring listing and enjoyed our hot soak, found one shut down, one remodeling and one a bit too pricey for us. Would like to see some reference to actual costs rather than than reasonable or free or deluxe. One place inaccessible without 4 wheel drive but we will keep trying, the maps are good.5 of 8 people found the following review helpful. Just what we need. RVs at wilderness hot springsBy NagronskyThe only useful thing about this writer's books on hot springs are the USGS maps and the latitude/longitudes. I bought a book of his nearly 20 years ago and was thoroughly dissatisfied, was incensed when it seemed to me he was more interested in providing info for the land yacht crowd. I wonder if his book alleging that the lunar landings were hoaxes is any better. I doubt it. He probably denies the Holocaust took

place, too. If you want a book on hot springs, check out Jayson Loam's books. They are much better. If you want info on faked lunar landings, get the movie "Capricorn One."
