**Oppelt Norman T : Guide to Prehistoric Ruins of the Southwest (The Pruett Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide to Prehistoric Ruins of the Southwest (The Pruett Series):

0 of 0 people found the following review helpful. Dated informationBy T. BerryInteresting, but some of the information is dated. For example it tells about being able to rent horses to ride to a couple of more remote sites, but the park service no longer allows horses in there. So it ia a 17 mile each way hike - backpack and overnight camping required. Horses sounds like a great trip - was dissappointed to find that was no longer possible.I also found it contained very little about back country locations - it's mostly the easily accessable and well known sites. I was kind of hoping for something I was not aware of but there was really nothing new.0 of 0 people found the following review helpful. Definitely worthwhileBy PamelaHLVery helpful. Detailed. Persuaded us to stop at some places we had otherwise ignored, and we were incredibly grateful that we did.0 of 0 people found the following review helpful. Five StarsBy Charles TurnerWonderful
