Brad Sanders : Guide to William Bartram's Travels before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide to William Bartram's Travels:

0 of 0 people found the following review helpful. William Bartrand's TRAVELSBy Robert M. BumgarnerA very good read, one of the best I have purchased in a long time. I plan to use refer back to it in my future "travels"15 of 15 people found the following review helpful. This is a gem!By Grunt WolfAs an outdoorsman, Southerner and student of early American history, I found this book to be exceptional. It's more than a mere re-telling of Bartram's journeys. Brad Sanders has re-created the American Southeast as it must have been. The author incorporates maps, photos and his own vignettes that keep the reader captivated. Especially noteworthy are the details of Bartram's encounters with Native Americans. Most of these people and cultures he described are now gone forever. It's a book to savor slowly, over and over. The amount of detail is incredible and enjoyable. A perfect gift for oneself or the naturalist/history buff in your life.5 of 6 people found the following review helpful. On The Road With William BartramBy A CustomerThis

book is an excellent guide and traveling companion for anyone who has an interest in history and who finds themselves traveling the backroads and the highways of the American South.

This guide is an invaluable resource for anyone interested in the life and accomplishments of William Bartram and the colonial history of the Southeast. It is intended as a companion for those who wish to make short excursions through the land visited and explored by William Bartram, to visit historical sites and areas of environmental significance.

About the Author Brad Sanders is a Bartram scholar who has retraced William Bartram's footsteps many times during the past eight years. He has traveled from Cowee to Blue Springs and from Cape Fear to Pointe Coupee cataloging and describing the myriad sites that lie along the Bartram Trail.
