**Justine Kerfoot : Gunflint: Reflections On The Trail** before purchasing it in order to gage whether or not it would be worth my time, and all praised Gunflint: Reflections On The Trail:

1 of 5 people found the following review helpful. Passionate FisherBy oxydolaA beautiful area of the country, the Gunflint is growing increasingly populated compared to the years of the author. The book is rather dated and written about birds and bees---literally---and is more of a diary of every day happenings on a very leisurely lifestyle. Too slow

for me.

Justine Kerfoot has lived on Minnesota's remote Gunflint Trail for five decades. She's gutsy, knowledgeable, and humorous. Most of all she's real-a unique woman of strength and character! Her keen observations and warm sensitivity recreate memorable episodes and touching moments from her years on the trail.
