Only thing that could have made this a 5 star book was if t had been in color - but then - I only know of 1 GUNKS guidebook being in color (The Gunks by Zach Orencak Rachael Lynn - which can be hard to find).Otherwise this books is great. Great pics, diagrams, charts, maps, etc.A DEF must if you want to climb the Gunks! If combined with the above guidebook as well, you have a def kick butt combo for finding routes, reading about GUNKS history, and even some 70's retro pics of some famous climbers as well. The color pics fro, Orencak Lynn's book help a lot in actually 'locating' the correct route(s), and different sections of the GUNKS sch as a Trapps, Near Traps, etc.0 of 0 people found the following review helpful. MehBy ctbowguyOk book, but its several years old now. If you are climbing at the Trapps, get the app.0 of 0 people found the following review helpful.
