Leonard Kinsey : Habst and the Disney Saboteurs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Habst and the Disney Saboteurs:

7 of 8 people found the following review helpful. Amazing! My Favorite Disney Fiction By Far! By S. Coleman Where to begin? Bamboo Forest Publishing and Leonard Kinsey, once again, knock it out of the park with this one. Much like their other books, I couldn't put it down. While intriguing throughout, it still has an ease of reading to it that I've come to associate with Kinsey's and other BFP books. Starting and continuing through the story with backstage Disney adventures is an A+ in my book. I felt a connection with the main character from the very first pages of the book. As always, twists and turns and complete surprises are present in this book, and leave you shocked by the end. I could NEVER have predicted that ending!! An incredible read for any adult Disney fans. I should emphasize, this is not a book for kids, which makes it that much better for adult fans of WDW. If you have read Hollow World (by Nick Pobursky, of the Bamboo Forest family) I would highly suggest reading that first, so you can understand some character development, but it's not completely necessary as there is some backstory in the book. As a tech nerd, I love how there is explanations for things and how things are run closer to the end and the "guide" at the end of the book. The cut aways are well placed and add so much to the plot line. In summation this book rounds all bases of my interest and I would highly recommend to anyone. Spencer Coleman WDW Fan Boys 2 of 2 people found the following review helpful. I hadn't realized it would have the characters from Hollow World (which is a much better book), so that was a big plus. By M. Johnson A bit too focused on marijuana and sex, but if you can wade through that it is an interesting read for the Disney fan. I hadn't realized it would have the characters from Hollow World (which is a much better

book), so that was a big plus. Probably more intended for the 20-something (or younger) crowd, but definitely not a kids' book. 1 of 1 people found the following review helpful. FantasticBy CustomerOf you get past the adult situations, it has an amazing and well thought out storyline! Definitely worth a read!

Meet Reginald "Habst" Habstermeister: burnout, urban explorer, and loveable loser. Leeching off his oversexed and underage girlfriend, and living the life of luxury in her wealthy mother's mansion, he doesn't have a care in the world. But when Habst unwittingly becomes the prime suspect in the sabotage of Walt Disney World's most hated attractions, he has no choice but to enter a seedy web of Darknet intrigue in order to clear his name. One part comedy, one part mystery, and one part sci-fi futurism, Habst and the Disney Saboteurs is Kinsey's most ambitious and exciting book yet.
