From Hagstrom Maps : Hagstrom Somerset/Hunterdon/Mercer Counties, New Jersey Street Atlas (Hagstrom Somerset/Hunterdon/Mercer County Atlas) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hagstrom Somerset/Hunterdon/Mercer Counties, New Jersey Street Atlas (Hagstrom Somerset/Hunterdon/Mercer County Atlas):

The in-dash GPS in my BMW is great at giving roundabout ways of getting from Point A to Point B. On the other hand, a detailed street map, although more cumbersome to use, especially if multiple map pages are involved, will get you from Point A to Point B by the best

possible route every time. Yes, it takes a bit more work. This is not to see a GPS is useless; it's invaluable if you deviate from the plotted route; the GPS will recalculate for you, a map won't. But the best feature of any detailed map is that it gives one perspective and a "feel" for where you are, and for where you are going. No GPS I'm aware of does that. The Hagstrom Hunterdon/Mercer/Somerset map books is one of the best out there, and is invaluable for those who drive for a living, such as realtors. Since the book was published several years ago, there will be additions not shown -- a pity, because maps are being replaced by GPS devices and as such, aren't updated as often as they should be. But even if you don't drive for a living, you'll eventually find this 3-county guide more than useful. It's clear, legible, and easy to follow. Especially if you use it in conjunction with your GPS, as you should. 0 of 0 people found the following review helpful. hagstrom Somerset/Hunterdon/Mercer, New Jersey Street Atlas...
