It draws the comparison of desert-dwelling to a first-hand look at a completely different environment - Alaska. The main character travels to the far North rather reluctantly, and has the time of his life! The character moves from location to location, discovering unusual wildlife and wondrous sights along the way. The story moves right along, entertaining the reader / listener with new discoveries at each turn. A great book to learn of unusual destinations ...2 of 2 people found the following review helpful. Hal's Magical Cruise By A Customer Very fun book! My son loves it and it makes for excellent bedtime story telling. Imagine taking someone from the desert and putting them on a talking cruise book to Alaska. It's actually very educational because sometimes people have misconceptions about Alaska and it's a story that taught my son about Alaska as well as entertained him.0 of 0 people found the following review helpful. My child's favorite book By Pam My 5 year old daughter loves this

book! We have checked it out multiple times from the library. Now we are buying it. It is very imaginative because the animals and even the boat talk!

When Grandpa Eddie's family gives him the gift of a cruise to Alaska, he sees amazing birds, fishes, bears, glaciers, mountains, and friendly people.
