Full of fascinating characters like loggers cutting shingles off of trees on other peoples property, bootleggers, cattle and hog ranchers, thieves and families trying to scratch a living off the unforgiving hills. I recommend it highly to anyone interested in finding clues as to how Northern California became what it is today.0 of 0 people found the following review helpful. Five StarsBy CustomerOne of the best books I have read about northern California. I want to buy another one.0 of 0 people found the following review helpful. Fabulous historical bookBy weekend galIf you are interested in real life pioneer history, this is the book for you. Note that it is set around 1900s to 1910s. The writer tells about her experiences growing up in the hill country of "real northern" California. It's fascinating stuff.

From Editor's Comments: Hardscrabble is the autobiographical account of the first eighteen years (1907-1925) in the life of Anita Vivian Aldridge Kunkler. The memoir is set in the mountains of Shasta County, California, but the traditions and background of the Aldridge family lead back across the United States to the hills of eighteenth-century

North Carolina. (from <http://mart>)
