Tim Simard : Haunted Hikes of Vermont before purchasing it in order to gage whether or not it would be worth my time, and all praised Haunted Hikes of Vermont:

2 of 2 people found the following review helpful. Good ghosts stories, excellent hiking guideBy Mom in TXThe stories of Vermont ghosts and other unexplained phenomena in this book are fun to read and obviously well-researched, and the directions for hikes to take are clear and detailed. Highly recommended for fans of Vermont, hiking, and ghost stories.2 of 2 people found the following review helpful. Creepy...Fun...EnjoyableBy

BulldogscmBeing an avid Vermont hiker myself and history buff -- I am always interested in the history and traditions of where I visit. Vermont has a rich haunted history that Simard delves into with crafty and thoughtful writing. Some of the locations that Simard writes about are well-hiked regions of Vermont while others I had not yet sought out. I eagerly pursued this book which is as much about Simard's own adventures on the haunted trails of Vermont and the knowledge of the trails for the same reason. A great gift and something that I would recommend to any novice or expert hiker in Vermont or New England. 1 of 2 people found the following review helpful. Interesting ReadBy K. HoultonI enjoyed reading this because of the detailed descriptions of the hikes and the history of the places. The stories of what you might see - the haunted parts - were pretty good. Also, I discovered that the state of Vermont on the cover of the book glows in the dark!

The latest title in the Haunted Hikes series, Haunted Hikes of Vermont is great for everyone in the family whether they like history, ghosts, or simply the outdoors. This fun and spooky hiking guide provides both storied history and fanciful legend along the trails of Vermont's Green Mountains and beyond. Discover the haunts of hikers gone by and determine whether these ghost tales are fact or fiction. The book includes details on what surrounds each area, how to get there, and a map of each trail with points of interest. Hikes are rated according to difficulty and spookiness with something for every family member. As with the previous title in the series, the cover glows in the dark!
