**National Geographic Maps - Trails Illustrated : Hawaii Volcanoes National Park (National Geographic Trails Illustrated Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hawaii Volcanoes National Park (National Geographic Trails Illustrated Map):

0 of 0 people found the following review helpful. Good MapBy rtpGreat map.... waterproof, tear resistant. Easy to fold into whatever section you're traveling in.2 of 2 people found the following review helpful. These maps never disappointBy Colin ReuschThese National Geographic trail maps really never disappoint; I snag one whenever I'm planning to spend more than a day or so at a National Park and they're always worth the purchase. Durable, waterproof, and easy to read - I can fold it to the spot I need and simply carry it compactly or just shove it in my pack knowing I don't have to be too careful with it.1 of 1 people found the following review helpful. Typical Nat. Geo topo mapBy mI am planning on going to the Big Island this Summer. I have bought Nat Geo Trails Illustrated before visiting other parks and biking around Moab. They are a great addition if you plan on doing any hiking. This map appears to be very similar to others that I have purchased in the past and will likely be a great addition to my trip. The material is tough and waterproof and will withstand most abuse. If you don't plan on doing anything other than driving around, don't buy because it will not assist you. Just pick up the tourist info at the Park Store.

Waterproof Tear-Resistant Topographic MapThere is perhaps no better place to witness the awesome volcanic activity of our planet than Hawaii Volcanoes National Park. The park was created to preserve the natural setting of Kilauea, one of the world's most active volcanoes, and Mauna Loa, the world's most massive subaerial volcano. The park is also refuge for many native plants and animals. National Geographic's Trails Illustrated map of Hawaii Volcanoes National Park combines unmatched detail with helpful information to offer an invaluable tool for making the most of your visit to this extraordinary landscape. Created in partnership with local land management agencies, this expertly researched map features key areas of interest including Makaopuhi Crater, Napau Crater, Chain of Craters Road, Kapapala, and Pu'u Loa. The print version of this map also includes a detailed inset of Kilauea Caldera.Designed with a wide range of visitors in mind, this map features detailed and easy to read trails that are clearly marked according to use and include mileage between intersections. A handy day hike chart with length, time, and descriptions of each hike will help you choose a trail that's right for you. Road types are differentiated as well, so you know if the route you choose is a paved, four-wheel-drive, or high-clearance road. Recreation features and amenities are clearly marked, including campgrounds, trailheads, interpretive trails, picnic areas, scenic overlooks, points of interest, restrooms, lodging, and food services. The map base includes contour lines and elevations for summits.Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation.Other features found on this map include: Hawai'i Volcanoes National Park, Island of Hawaii, Kau Desert, Kilauea Crater, Mauna Loa.Map Scale = 1:100,000 1:25,000Sheet Size = 37.75" x 25.5"Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
