**Russell Gueho : Rhythms of the Kimberley: A Seasonal Journey Through Australia's North** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rhythms of the Kimberley: A Seasonal Journey Through Australia's North:

Traveling through this stunning, dramatically changing, and always surprising, landscape, this guide looks at both monumental and the seemingly infinitesimal seasonal events from the massive tides and cataclysmic cyclones to the flowering of plants and the impact of exotics on the environment. It includes fascinating information on local indigenous Kimberley food calendars, the role of fire, and the seasonal indicators in the night sky.

About the Author Russell Guho is the author of *Icons of the Kimberley* and a professional fishing guide and dive master who has worked with a number of Kimberley charter cruise operators.
