I travel full time and have experienced much of what Andy Sanders writes about. This book is extremely helpful and will prepare you to move out in itinerant ministry. The lifestyle can be quite demanding and you definitely need skills, focus and extra determination that most don't consider. Andy's book will be invaluable to you.

Are you an author or a minister setting out to take your message to the masses? Are you facing the prospect of becoming a traveling speaker, trying to prepare for the circumstances you expect, and worrying that there are countless more you can't even begin to anticipate? Are you debating whether to travel alone or attempt to bring your family along? Is that even possible? The Sanders have been there, and in this book Andy shares their real-life experiences and advice for any traveling author or speaker. Having spent years on the road as a family, children and all, they have faced the unexpected in countless surprises. In traveling through twenty-seven states and ten foreign countries, they have learned what to do, what not to do, and where to be cautious. For anyone who has not lived on the road, this book is an eye-opener; for someone facing the prospect of bringing their family into a traveling ministry, this is a must-read!
