information. I am a frequent traveler, and I am really puzzled as to the target audience of this brochure. 0 of 0 people found the following review helpful. Best to read with a map of the area. By JohnnyVQuick read. The writing was very factual and to the point. Best to read with a map of the area. I will bring it with me on my trip to Utah for reference.

Southeastern Utah will remind you of a movie set in its stark and startling beauty. And, it won't surprise you to learn that it has actually been the site of many a movie and even more commercials. And, while its a hot destination for filming, there aren't many crowds, once you move away from Moab. The lack of crowds is not a result of lack of beauty but more, perhaps, lack of adventure. The further you get from Moab, the more primitive the environment. Roads are long with few stops in between, and visitors are left to enjoy the scenery and its attendant activities without much interference from the modern world. Visitors seeking luxury amenities will want to stay near Moab. And, for the more adventurous sort? Well, this is pretty close to paradise.
