Vaughn Robinson : Robinson Cruising: Confessions of a crewmember before purchasing it in order to gage whether or not it would be worth my time, and all praised Robinson Cruising: Confessions of a crewmember:

Witty, humorous and quirky a great holiday read. I would rather be based in honey and left in an Alaskan forest than set foot on a cruise ship he once told his wife. Due to an unfortunate turn of events Robinson soon finds himself in the unexpected position of being overjoyed with the thought of working on one. Part confessional, part travelogue, this is one persons unique and often rather irreverent take on how he sees cruise ship life from the perspective of working on them for four years. This book typically follows a Bill Bryson style of writing, with a look at aspects of cruise ship life few would, could or should (in polite society that is) imagine. Safety, sickness, death, passengers, tipping, alcohol and most unusually masturbating parties are just some of the strange and wacky things you can expect to find in this unconventional reading experience. Just in case you think it is all fun and frolics, Robinson also discusses some of his favourite places around the world and looks at why they made such a deep impression on him. He writes this account from the perspective of looking back and sees his time on cruise ships as a cathartic experience where he likens it to being on a desert island. Even if you have never, will never, or could ever contemplate a holiday on a cruise ship it is well worth a read and if nothing else will leave you laughing and a little more informed.
