**William A. Kappeler : Rockhounding Utah (Rockhounding Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rockhounding Utah (Rockhounding Series):

2 of 2 people found the following review helpful. If you find geology fascinating,By B. CarlinI am hoping to utilize the explicit directions and digging advice to find rocks worthy of lapidary in my retirement! Regardless of what I find, exploring is the best of all worlds, getting exercise, seeing this beautiful land of ours and if I find keepers, all the better,!0 of 0 people found the following review helpful. Good, detailed reference.By mfaGoes with us when we go "rock wandering". And has led us to some new areas.0 of 0 people found the following review helpful. Successful gift

for a teen age grandsonBy CustomerGift for a rock hounding teen age grandson. He was very happy and his mother said he had several trips "planned."

Eighty-six sites.

From the Back CoverAuthor William A. Kappeler shows you the grandeur of Utah's exposed formations, its canyon walls etched with fossils, and the spires and arches of the Needles District in Canyonlands National Park. Each description includes concise information on the material to be found there, the tools to bring, the best season to visit, the vehicle to drive, or when a remote find suggests it's time to lace up the hiking boots. Readers will glean new insights into the obsidian of the Black Rock sites, jasper at Hell's Backbone, petrified wood at Bullfrog Turnoff, and fossils of sea lillies along the Wasatch Range. May your journeys be fruitful and your bag be heavy on the way home. Somewhere in that bag among your rocks, we hope you haven't forgotten your copy of Rockhounding Utah.
