But my husband I are finding this quite helpful in planning our anniversary 'staycation'. Some novel ideas- yes, tailored to couples- some nice suggestions for ideas we were already considering.

Mostly helps with 'painting a picture' with its charming descriptions of excursions that my husband can visualize a lot better than my flights of fancy! Also helpful as a telephone # guide, since the info is a few years old. Hints @ future editions but I haven't looked to see if those are available. 11 of 11 people found the following review helpful. Romantic Kentucky Does the Bluegrass State Proud! By Christopher W. Kash As a displaced Kentuckian limited to visiting once or twice a year, I was looking forward to this book to enhance my wife and mine's experiences. Although I am intimately familiar with the Lexington area, I was nonetheless delighted to find many central Kentucky locales that were new to me. The authors have obviously done their research, and have represented all regions of the state well. Most satisfying to me personally was the inclusion of Joseph-Beth Booksellers of Lexington. It is indeed a wonderful place for romance. This book is perfect for anyone looking for a romantic experience, and hopefully it will encourage more people to recognize Kentucky as the special place that it is. 3 of 3 people found the following review helpful. Plan A Kentucky Getaway For Two By Hugh Patrick Bosley Growing up, I always wanted to go to Europe, after all that was the center of history and art in my school books...nowhere was there the idea of exploring the areas around home and across the US. I now realize that we have a lot to see and do right here in our back yard. This is the kind of book that opens doors to things you never knew were there. If you want to plan a Kentucky getaway for two, this is the book for you. Disclaimer - Moonlite is mentioned in this book. Moonlite is an authority on Southern Food and Barbecue. Patrick Bosley of the Moonlite Bar-B-Q Inn Author/Editor - Family Favorites From Moonlite Recipes That Founded A Kentucky Tradition ISBN: 0-9766896-0-x What my Review Stars mean to me at a glance: 5 stars = A Must have for your Book Shelf - perfect for cooking or a guide for traveling! Worth Full Price 4 stars = A great read - may fit special interests - I recommend you to buy it if the subject appeals to you. Worth Full Price 3 stars = Interesting material - read it if you have time; buy it if the subject appeals to you. Look for it used at a discount. Also, it is worth looking for it at your local library (if not available, try interlibrary loan). 2 stars = It is worth a look at your library if the subject interests you 1 star = Look at it if you come across it, or try another title on the same subject

When people think of Kentucky, they often conjure images of thoroughbreds grazing on rolling bluegrass farmland behind miles of white fences, or the strains of "My Old Kentucky Home" on Derby Day. In this guidebook, the authors uncover some of the state's lesser-known charms, particularly those that lend themselves to romance. Taking a broad view of romance, this book includes something for readers of every different lifestyle, interest, and income. You'll find everything from a bed-and-breakfast inn to a riverboat cruise to a historic Shaker village or to a scenic blackberry farm. Here's a sample of some of the authors' favorite sites and activities: --View the Western hemisphere's only moonbow-a sort of nighttime rainbow--at Cumberland Falls --Have breakfast and watch the morning workouts at historic Keeneland Race Track in Lexington --Immerse yourself in a weekend of rousing music at the Great American Brass Band Festival in Danville --Take your sweetheart on the Violet City Lantern Tour at Mammoth Cave --Take a Moonlight Float on Elkhorn Creek near Frankfort during full-moon weekends.

About the Author Laura Sutton is a development director for the University of Kentucky. Leila Salisbury is the marketing manager for the University Press of Kentucky. They both live in Lexington, Kentucky.
