Doreen Webster : Round The World In a Wheelchair before purchasing it in order to gage whether or not it would be worth my time, and all praised Round The World In a Wheelchair:

Regarding Wheelchair Accessible Travel, Not InformativeBy ClydeSThis is the written equivalent of having to sit through a couples' 5,000 slide show of their trip around the world. The narrative is from the perspective of an able bodied person. Occasional comments are made about wheelchair

accessibility issues faced by the author's husband. The comments are superficial and of very little value to a wheelchair user. This maybe interesting to an older couple looking for inspiration to travel with mobility issues.
