Jack Wiley : RVing Slab City, California: Off-the-Grid Free and Unrestricted Boondocking in Your RV before purchasing it in order to gage whether or not it would be worth my time, and all praised RVing Slab City, California: Off-the-Grid Free and Unrestricted Boondocking in Your RV:

1 of 1 people found the following review helpful. An Interesting Area in which People Live In Peace With No RulesBy Andy Anderson aka Travis C.This was a quick easy read. Its more of a journal or diary than I expected, but it does spotlight an area of interest and showcases a vanishing spirit,I borrowed it using my Kindle Unlimited account.Four stars out of five as a KU selection.0 of 0 people found the following review helpful. That's a negatoryBy Martha H.I just didn't like how this place is set up. It appears to be full of people trying to start their own government

RVING SLAB CITY, CALIFORNIA, is a complete guide to RVing to what is often referred to as the Last Free Place. In the United States we have freedom to roam in Recreational Vehicles, which are commonly referred to as RVs, like nowhere else in the world. Though rarely marked on maps, there is a place in California known as Slab City or The Slabs that takes this RVing freedom to the extreme. It is not only free of boondocking (also known as dry camping or staying in an RV without hookups) fees, it is also largely free of rules and regulations. Before I had actually been there and boondocked there and experienced it for myself, I could not believe that such a place could exist. Now that I have been there, its existence still seems problematical to me. One of the reasons I keep returning is, I think, to see if it is still there as I remember it to have been. The talk of developing it was around long before I first went there, and it continues. It is known as the last free place, but I have no idea how much longer this will continue. Development will surely mean fees and restrictions, so if you want to experience the off-the-grid free and unrestricted boondocking in your RV, you had better do it now. This book is all about what led me to Slab City, why I keep returning, and what I do while I am there. And more importantly it is about how you can experience Slab City for yourself. This book is intended as a complete guide for RVing Slab City, with history and how Slab City came to be thrown in for good measure. Its also about boondocking in RVs in general and in Slab City in particular. Slab City is off the grid. There are no hookups. If you want to spend time in your RV at Slab City, you boondock. There is no other choice. This book shows how.

About the Author Jack Wiley is an experienced craftsman and the author of several TAB books including "The Fiberglass Boat Handbook, Working with Fiberglass: Techniques and Projects, " and "Making Your Own Exercise Equipment."
