Younghusband American City Notebooks : Salt Lake City DIY City Guide and Travel Journal: City Notebook for Salt Lake City, Utah before purchasing it in order to gage whether or not it would be worth my time, and all praised Salt Lake City DIY City Guide and Travel Journal: City Notebook for Salt Lake City, Utah:

1 of 1 people found the following review helpful. Can't Stop Laughing!By Timothy W. ReinigI just received this book for a planned trip in two days from New York City to Salt Lake City. I wanted something relatively up-to-date since the only other recent guide book I could find on was the Moon Spotlight guide, which is several years old. Well, after having ordered this on a one day overnight delivery mail basis I found that the book is completely blank! There is not so much as a 1-800 Number or a basic map to locate anything at all in Salt Lake yet alone suggested venues! The book

is actually a fill-it-in yourself "travel diary" where you are supposed to enter in your experiences of places and venues you discover on your own during your visit. Why the author/publishers think you need this book for Salt Lake City in particular, as opposed to any other destination, is a mystery to me. But, I had a good laugh at all the blank pages, and promptly ordered the Moon Spotlight guide. Not suggested for people who actually need a guide book!
