It's an old-fashioned version where you can follow a road and actually see roads and territories in relation to one another. Google Maps does the job but when you want to see more than the monitor allows and still be able to read the writing--a paper map is the only way to go.1 of 1 people found the following review helpful. Five StarsBy Allan SExactly what I needed for Oceanside, Vista, San Marcos and Escondido.0 of 0 people found the following review helpful. Finding my way in San Diego.By KateAppreciate it. good map. So enjoy studying the area on a map and nuances at a table rather than electronically. Easier to learn the area.

City map of San Diego with legend and street index. Insets of Ramona and Fallbrook. On reverse San Diego city map and street index continued.
