America's Finest City - through the eyes of a proBy HomesByScotThis book captures the essence of San Diego, highlighting some of its popular spots and real-life moments. It makes a great coffee table book for anyone who loves America's Finest City, and it would be a nice gift for anyone who has spent enough time there to learn to love fish tacos. In fact, I now give a copy to all of my clients who buy or sell a property in the area.0 of 0 people found the following review helpful. Five StarsBy Len Burroughsbeautiful book!1 of 2 people found the following review helpful. Finally photography that does justice to this beautiful city as no one has beforeBy IDSteven Gould's book on San Diego is a triumph. Finally photography that does justice to this beautiful city as no one has before.

Overlooking the vast Pacific Ocean from a vantage point of massive sculpted cliffs painted gold by a setting sun, one

cannot help but absorb the stunning beauty of the San Diego coastline. This ethereal vision is a fitting invitation to discover much more about the multi-layered culture, intriguing history, and fascinating people that make this place "America's Finest City." San Diego is a city of historic adobe structures and modern architecture. Dynamic and ever-changing, it is a unique blend of past and present-all the while with a curious and spirited pulse on the future. Crisp and clean; bold and vibrant-these are words that best describe both the imagery from the lens of talented photographer Steve Gould and the incredible city he has so beautifully captured.

About the Author Steve has been photographing landscape, nature, wildlife and travel professionally since 2004, but his love of photography began forty years before, during a summer traveling in Europe. He was a professor of chemistry at the University of Connecticut and Oregon State University, an Executive Director at Merck Pharmaceuticals in New Jersey, and Chief Scientific Officer at Mera Pharmaceuticals in San Diego. After living on both the east and west coasts, Steve returned to California in 2002. Steve's photography has been featured in the San Diego Natural History Museum and the Oceanside Museum of Art, as well as in galleries in San Diego, Sedona, San Clemente, and Carlsbad. He has been a winner in Nature's Best Photography's "Ocean Views" 2012 competition and the Nature Conservancy 2013 Calendar competition. His prints are found in numerous private and corporate collections, including Kaiser Permanente (San Diego), City of Hope National Medical Center, and Scripps Institute of Oceanography.
