There is more to San Diego, California, than one can see on a single visit, more than many residents have seen. But photographer Bill Wechter shows us plenty: a history that includes Native Americans, 16th century European explorations and later Spanish settlements, international expositions, and the birth of American naval aviation; a natural environment of that stretches from white sand beaches to forested mountains to pristine desert; a city on the move, with something new, and something old, around every corner.
