Gerald Hoberman, Marc Hoberman : San Francisco: Coffee Table Book (Mighty Marvelous Little Books)

before purchasing it in order to gage whether or not it would be worth my time, and all praised San Francisco: Coffee Table Book (Mighty Marvelous Little Books):

8 of 10 people found the following review helpful. Just MagicBy ericaAfter buying Ireland by Gerald Hoberman I had to buy a book on my second favorite city. Once again a Hoberman book is just superior to anything else out there. You will love this book. Just a magic journey through a magical place. The compelling photos are matched with wonderful writing.

Features photographs that reveal the heart of a city founded by Spaniards, put on the world map by a Gold Rush, shaken by a mighty earthquake, and then built anew from the ruins.
