One thing to keep in mind is that the maps included in this PopOut Map are very compact with very fine print.By Nick 1776If you're familiar with PopOut Maps, this one is no different. Rather than being one large, all-encompassing map, this map is comprised of approximately six to seven smaller maps, each of which focuses on one geographic area or popular tourist destination. The areas covered by this are (i) map of downtown Seattle, (ii) a zoomed out map of the greater Seattle metropolitan area, (iii) a much more zoomed out map depicting Puget Sound and most of the northwest portion of Washington state, (iv) mini map of Pike Place Market, (v) mini map of Pioneer Square, and (vi) map of University of Washington. The surrounding edges of the maps also contain lists of popular tourist attractions and sightseeing suggestions. One thing to keep in mind is that the maps included in this PopOut Map are very compact with very fine print.0 of 0 people found the following review helpful. good map, but missing transit systemBy aidyltI have many of the popout maps - they are so convenient when traveling, as they don't take up a great deal of space and have many highlights listed on them. That being said, I wasn't as happy with this one due to the lack of the transit system on the back like most other cities. Instead there was a closeup map of the University of WA, which wasn't helpful for me at all. I understand Seattle has a large, sprawling transit system, but even the downtown area would have been a big help. This won't keep me from buying these maps at other cities, but does reduce the helpfulness of this one.1 of 1 people found the following review helpful. Perfect pocket-sized mapBy Pacific PractitionerThese come in VERY HANDY when you're trucking around a city you're unfamiliar with. I got a few for guests to use while they were in town for my wedding. Everybody loved them!

About the Author PopOut was founded in 1993. Having spotted a need to cure what he calls 'Map Stress Syndrome' after watching numerous tourists around the City of Bath, England, battling with oversized maps, founder Derek Dacey recalled the invaluable miniature charts he used during his days as a commercial pilot. Aiming to bring this level of usability to the city map market, a small team of designers was recruited to realise what would soon become the PopOut. 1993 saw the release of the first ever PopOut Map Bath, which was sold in the gift and souvenir trade across the city. Hot on the heels of this initial success, a research trip to the USA culminated in a redesigned layout, combining strong photo images, high quality printing and laminated covers standards which are still adhered to today. That research trip also saw the birth of the first US destinations covered in the PopOut range Boston, NYC, Philadelphia and Washington DC. Launched in the new style in the US they enjoyed instant success in the gift and souvenir trade.
