By LakePenI have held a firm respect for Pinkham's work for decades and have read his other books. While I may not reach the same conclusions as he does, I am always intrigued with his research and writing. His latest book is a great read and houses findings designed to expand the mind. I look forward to spending more time in the Sedona area with an eye toward the sky. 0 of 1 people found the following review helpful. WASTE OF TIME AND

MONEYBy Gary SprunkThis book was absolutely no good. It had lots and lots of grammatical errors. I guess it was not edited properly, if at all. Aside from that problem, his writings were not based on any truth that I could find, and were just not believable at all.3 of 8 people found the following review helpful. like the Hopi legendsBy CustomerWhat are the author's credentials, background education other than being an acupuncturist that could justify the topic he writes about? Can he present any scientific, linguistic, historic research or any other believable facts? Telling the readers he read a lot (since he was 7 years old ) or he traveled a lot does not justify anything of the theories he puts forward. A lot of people do that without pretense . It seems to me the real "teachers" or seekers do not make a business out of their Knowledge or sacred truth. and do not name "esoteric" everything they cannot explain. Spiritual people are humble and will spread their knowledge for free for those who have ears to hear and eyes to see, like the Hopi legends. Did they ( Hopi or Pueblo ) make any benefit out of their wisdom? No, but a lot of false spiritual teachers and authors did and do. On the other hand, the book is full of typing and gross grammar errors. And I don't even want to go deeper into the lack of writing skills which is under the high school level. I wonder wether anyone proof-read the book before being printed.

Sedona: City of the Star People reveals the esoteric history of Sedona, Arizona, which author Pinkham says was known in very ancient times as Palatkwapi, the Red House. According to Hopi legend, Extraterrestrial Star People built Palatkwapi as a glorious city of sacred wisdom. It was here that the migrating Hopis learned their sacred rites and dances, as well as many mysteries of the universe. Since 1987, author Mark Amaru Pinkham has been blessed with the ability to envision Palatkwapi as it exists nowan interdimensional city that co-exists with the physical town of Sedona. Many of Palatkwapis temples continue to exist physically within Sedona in a water-worn condition, and on higher dimensions they survive in their original perfection. In Sedona: City of the Star People Mark recounts his first experiences with the temples of Palatkwapi in Boynton Canyon, the largest of the four major vortexes of Sedona, and then he shares his experiences during the following 27 years as he continuously returns to study their design and function. The book culminates in Marks discovery of a royal court composed of red rock temples that he now identifies as the ancient seat of the Hopis King of the World, the Star Being known as Masauu. Through his direct study with the Yezidi priests of Iraq, Mark has further discovered that Masauu is another name for the Yezidis King of the World, Tawsi Melek, the Peacock Angel, and that the planetary monarch is due to soon make his presence known among the masses. Could it be in Sedona?
