Around two hundred million years ago, geological forces produced an expansive grove of rocky caverns and outcroppings atop Lookout Mountain. It was not until the twentieth century, however, that this awe-inspiring citadel evolved into a nationally recognized tourist attraction when Garnet Carter and his wife, Frieda, developed the natural marvel into the Rock City Gardens we know today, an enchanted tribute to fairytales and a breathtaking homage to nature. Join Rock City expert Tim Hollis as he guides you through the origins of the site's most fascinating spots, including Fairyland Caverns, See Seven States and Lover's Leap. Also learn the story behind the world-famous 'See Rock City' marketing campaign, as well as the steep challenges the landmark has faced in an often volatile tourism industry. Perhaps the only aspect of Rock City more enchanting than its physical beauty is the fairytale story that surrounds it.
