National Geographic Maps - Trails Illustrated : Sequoia and Kings Canyon National Parks (National Geographic Trails Illustrated Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sequoia and Kings Canyon National Parks (National Geographic Trails Illustrated Map):

1 of 1 people found the following review helpful. Great map!By TGDeepI usually buy Tom Harrison maps but decided this out due to the reviews. Great overview of the park and a lot of the popular trails are marked. I've been backpacking in the area, but I'm about to take the wife on a weekend trip to see the Sequoias and wanted a good map to take. This map shows all the popular trail and ranger stations. It even details some of the lodges in the area and ranger stations. If I was going on a serious hike though I'd want a little more detail. I believe there are separate maps for the Mineral King area and Kings Canyon with more detail. I just like maps for a nice overall view and I normally carry a GPS to stay on trail during winter months.2 of 2 people found the following review helpful. ... looking at the National Geographic Maps I really do like them. They are a little on the heavy ...By M. WhismanI have always used the Tom Harrison map series but after looking at the National Geographic Maps I really do like them. They are a little on the heavy side if you are a backpacker, but for a reference map I think they are really great.0 of 0 people found the following review helpful. Not what I expectedBy Laura K.I thought all the tourist, short trails, visitor centers and recommended overlooks would be marked. I may have misunderstood what i was buying, but I don't see how this map is helpful to most people. A few spots in Sequoia were marked, but many I expected to see were no where to be found. It is truly a topographical map for serious hikers (I am guessing).

Waterproof Tear-Resistant Topographic MapIn Sequoia and Kings Canyon National Parks you can walk among the world's largest trees, hike the alpine landscape of the Sierra Crest, and marvel at the towering granite cliffs of one of the deepest canyons in the United States. National Geographic's Trails Illustrated map of Sequoia and Kings Canyon National Parks provides unmatched detail of these parks, meeting the needs of amateur and experienced outdoor enthusiasts alike. Created in partnership with local land management agencies, this expertly researched map features key areas of interest including Sequoia Grove; Giant Sequoia National Monument; John Muir, Golden Trout, Jennie Lakes and Monarch Wilderness Areas; John Muir Trail; Pacific Crest Trail; and Mt. Whitney, the highest peak in the contiguous United States. With miles of mapped trails in some of the most breathtaking scenery in the entire country, this map can guide you off the beaten path and back again. In addition to detailed and easy-to-read trails, this map includes an accurate road network, campgrounds, scenic overlooks and points of interests, visitor centers and facilities, plus park regulations, backcountry use areas, and contact information for local agencies. The map base includes contour lines and elevations for summits, passes and major lakes. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Cirque Peak, Golden Trout Wilderness, Inyo National Forest, Jennie Lakes Wilderness, John Muir Wilderness, Kings Canyon National Park, Middle Palisade, Monarch Wilderness, Mount Agassiz, Mount Darwin, Mount Goddard, Mount Kaweah, Mount Langley, Mount Muir, Mount Pinchot, Mount Powell, Mount Russell, Mount Sill, Mount Tyndall, Mount Whitney, Mount Williamson, North Palisade, Sequoia National Forest, Sequoia National Park, Sierra National Forest, Sierra Nevada, Split Mountain, Triple Divide Peak. Map Scale = 1:80,000 Sheet Size = 37.75" x 25.5" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.
