Covers all the bases from the early trappers blazing the Siskiyou Trail to current times.0 of 0 people found the following review helpful. Good service from an honest sellerBy Janeth S. PainterThe description from the seller mentioned small fraying on the lower corner of the cover of the book. She must have a good microscope - I could barely see any flaws on or in this book. To even have mentioned the fraying shows a very high degree of honesty. I would be happy to have further business with this seller.0 of 0 people found the following review helpful.
