Following up from Shit London, a hilarious collection of photographs depicting what shittiness New Yorkers have to actually put up with every day Welcome to New York, one of the most vibrant and beautiful cities in the world. It boasts some of the planet's most alluring and enduring attractions and some of the most expensive retail and residential square footage known to estate agents. It is home to the Knicks, Mets, Yankees, Giants, Jets, and Devils. It is infamously referred to as the city that never sleeps. And it's true. It doesn't. Which is why, now, after all these years, it has started to look a little tired. A little run down. A little exhausted. It is a city in need of some TLC and a cuddle. In short, it is a city falling apart, on its knees, and in need of a damn good bath. The book is a hilarious collection of photographs of the world's most fascinating city at its worst. The photos reveal the eccentricities, oddness, bleakness, and strangeness of every nook and cranny of the sprawling five boroughs. This is a warts-and-all walk around the world's favorite city seen through the eyes of its locals and Patrick Dalton the quintessential Englishman in New York.
