Learn from the expertBy Sandra M. FowlerWe are about to leave on a month long journey to Eastern Europe,and despite having visited over 50 countries, these are countries we've never

visited before like Croatia and Montenegro. This book arrived just in time and it is so worth reading. The Travel Wise Model makes good sense. The Travel Wise Personal Inventory was eye-opening and so useful. Leki explains each question on the survey in terms of its relationship to safety and security (I learned that they are not the same thing) and how my answers relate to risk assessment. Who could ask for more? Leki also relates emotional intelligence to safe travel abroad giving me a new way to think about intercultural encounters. He is respectful of intercultural experiences and cross-cultural skills and clearly describes those. His examples from personal experience (I found his graphic description of his trek in Nepal with the leeches and stinging nettles engaging while also being rather discomfiting) and the illustrations he used from his vast experience brought his ideas right down to earth. Laurette Bennhold-Samaan says on the cover that this book is "essential reading for anyone who carries a passport." I couldn't agree more! 1 of 1 people found the following review helpful. Very practical and easily accessible
By A. L. Stewart-allen
This is the book every business and leisure traveler should be issued with their passport, regardless of which country they'll be visiting. Ray Leki's vast experience and anecdotes are terrific, making it an easily accessible read. I hope I never need to use the advice he gives, but if I ever do, at least I'll know it has come from a real expert.

In an age when international travel is as easy as it is unsettling, people need a variety of skills to cope with the unknown. Simple country-specific information about a destination is not enough. You need cultural competence as well as a clear understanding of your own tolerance for risk. Travel Wise offers insight and practical advice to help you adopt the right attitude, the right training and the right approach for a successful journey. Travel Wise is about much more than security. Ray Leki has worked with tens of thousands of travelers-students, workers, negotiators, soldiers, diplomats, plant managers and tourists-helping to increase their chances for success in their missions. Before you pack your bags, use the Travel Wise Model to learn what kind of a traveler you are, what resources and limitations you carry with you, how clear you are about your mission and what you are willing to risk to achieve your goal. Whether you are in corporate security or human resources, whether you run a study abroad program or an international NGO, whether you are a businessperson, a student-or traveling for the sheer enjoyment of experiencing the world-Travel Wise will help you stay safe, savvy and secure wherever you go.
