**Don George : Travel Writing (Lonely Planet)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Travel Writing (Lonely Planet):

15 of 16 people found the following review helpful. Travel Writing a Wake-Up Call By N. Maclean This is an excellent book on the practice and business of travel writing, not only because the authors are experts in the field and know whereof they write, but most important, because they very quickly dispel the well publicized myth that travel writing is a quick and easy field to break into for the legions of retirees hoping to soon become well-funded expats simply by

picking up laptop and digital camera in the exotic locale of their dreams and submitting away --- no talent or experience or contacts required! It is a useful, thorough and often sobering read, and especially for the writer with some experience. Highly recommended.
