I am considering for visiting 3 cities that this book recommends. 0 of 1 people found the following review helpful. Great book! By Customer I live in America, and I must say this book really highlights the main places to visit! I have been to some, but definitely must see more, and coming from out of America I would say this book gives a very good starting point. Houston Texas being my favorite of the places so far. 0 of 0 people found the following review helpful. Awesome Guide! By John America is a lovely country and this book really shows you some of the countries hidden gems that many visitors probably do not know about. Very informative and written in a well structured way.

Discover the Top 3 Places You MUST See When Traveling to America Traveling to new places is an excellent experience to absorb new ideas, food, culture, and sights. America has been popularized around the world for their political interference, movie appearance, dissemination of popular culture, and consumerism; however, this doesn't quite grasp the full culture that is there. The United States is much more than these Hollywood explosions, explicit music lyrics, political debates, and Apple products. This is the image that most people see from the outside but it is not true. The only way to truly realize this is to travel there and get an understanding for it. You've got to experience it from the inside, not the outside looking in. It is understandable for an individual traveling for business needs to travel to these 4 cities, because those are the major business capitals of the U.S.: New York is the financial capital of the U.S.; Chicago is the manufacturing capital of the U.S.; L.A. is the major motion picture capital of the U.S.; and finally, Washington D.C. is the well, capital of the U.S.! These cities are so popular that the culture therein has been much internationalized. It gives a very poor glimpse into the real image of America. In this book, I'd like to describe three must-see cities in the United States that generally do not make the Most-visited list but really showcase the culture and life of the United States in general. The cities for this list are as follows: Destination #1: Annapolis, Maryland Destination #2: Pittsburgh, Pennsylvania Destination #3: Houston, Texas These cities will give us insight into the East and West of the United States, history and modernization, and urban and rural life. It will provide a more well-rounded view of American life than the typical big-tourist cities will. Each will provide its own unique experience.
