000 pet-friendly, AAA-RATED lodgings across the United States and Canada:

105 of 107 people found the following review helpful. Traveling With Your Pet The AAA PetBookBy MelissaThis is a good source book if you are strictly looking for help with finding accommodations where your pet can stay with you. There is a short chapter on travel tips-things you need to keep in mind of you are planning to take your pet along in the car or on a plane. There are also listings for national public lands in the US and Canada that allow pets as well as a listing of emergency vet clinics by states. As I stated, this is strictly a resource book. If you're looking for "fun vacation activities with your pet", you'll have to look at a different book, but this is a good starting place when you need to make reservations to spend the night somewhere while on the road.10 of 10 people found the following review helpful. I would definitely recommend this book as a guide for travelers with petsBy Cathy RodriguezWhen I found this book I was excited to purchase it because this summer was the first time I ever traveled with a pet.The book put me in the right direction to finding hotels and motels that would allow dogs reside in their rooms.The prices and security deposits listed in the book were accurate and helpful. I would definitely recommend this book as a guide for travelers with pets. The southern states were much more pet friendly than many of the mideastern states.The Traveling With Your Pet book was well worth owning.0 of 0 people found the following review helpful. I had high hopes for this book but was very disappointed and gave up using it half way by SaskatchewanBy sekaFrustrating- I traveled from New Hampshire through Canada to Alaska by vehicle with two dogs. I had high hopes for this book but was very disappointed and gave up using it half way by Saskatchewan. What I discovered was that the book did not include many many lower budget Mom and Pop motels, hotels, and small cabin rentals that were all dog friendly. This becomes important when you drive into a city exhausted after a 16 hour driving day, arriving around midnight and call every single dog friendly hotel or motel listed in the book under that city to find they are booked solid. Weary and exhausted you then google the city name and dog friendly on your phone (thank goodness you can roam on Canadian cell towers) and you find another 5 to 10 smaller no name brand dog friendly lodging options - several with a few rooms left, thus google (and the app "bring Fido") help you find options that this book doesn't even list!! After this happened several times I just threw the book on the floor and gave up. Though I don't know why this book failed to list everything I wonder if they made loading options pay to be listed and smaller non franchise options couldn't or wouldn't pay??? Either way - in this book I was paying for an all inclusive solution summarizing all options so I had a travel resource that was actually useful. What I actually bought was have baked a not as thorough as google and Bring Fido. I wish I could get my money back - would not recommend this to anyone.

The PetBook is a comprehensive guide to traveling with pets, providing practical information about traveling with animals by car or plane. It features more than 10,000 AAA Rated lodgings, a list of emergency clinics throughout the US and Canada, national parks that accept pets and other pet-friendly points of interest, such as dog parks throughout North America. One color interior pages are filled with graphics, photos and sidebar type graphics. Lodging listed are filled with AAA proprietary information gathered by AAA Tourism Editors such as specific pet policies, restrictions, amenities, rates, driving directions and more.

.com If you think of your pet as a family member, it only follows that Fluffy should come along on family vacations. But between "no pets allowed" signs and over-the-top surcharges, it seems like your only option for accommodations is a tent. For travel anywhere in North America, those options are about to change, thanks to Traveling with Your Pet, a comprehensive and easy-to-use guide for AAA-rated lodgings that welcome four-legged guests. Most of the book reads like any standard travel book. Arranged alphabetically by state, you'll find hotels in both small towns and major cities, with a list of icons showing what amenities you can expect. Instead of descriptions of restaurants or spas, you'll find a sentence or two outlining pet policies. Here, a careful reading can save you a bundle. Although many hotels are happy to house animals, surcharges range anywhere from \$5 total to \$100 per night and, in some cases, only particular species of small size are accepted. This section cautions readers to confirm the current policy in advance. The last thing you want to discover upon arrival with your two labs is that the policy was changed the day before you made the reservations. Other than these listings, information is relatively limited, but can be helpful to newcomers to the world of pet vacations. Contact information is provided for several airlines, as well as emergency animal health-care suggestions and advice for buying safe traveling equipment. Dog owners will appreciate the list of off-leash dog parks throughout the U.S., which includes rules for national parks and forests. In fact, with all its practical information, you may find this book puts your regular pet sitter out of a job! --Jill LightnerAbout the AuthorAAA Published it's first TourBook in 1917 and continues to publish the most trusted travel publications today.
