GREAT BOOKBy The publisherTreasure Tours of 278 Masterpieces in the Louvre Museum: For the General Public with Special Handicapped Tours was given an outstanding REVIEW by "Kirkus Reviews"---they said this book was a "useful guide" for those with limited time and "it was almost essential" for those with limited mobility.I used a wheelchair in the Museum and found the book is a MUST for navigating the 42 elevators and lifts in the Museum because there are detailed directions to each elevator/lift (some are hidden in alcoves or are behind false walls, believe it or not).by Louvre 120 of 0 people found the following review helpful.
