Janet D Mehl : Trout Streams of Michigan before purchasing it in order to gage whether or not it would be worth my time, and all praised Trout Streams of Michigan:

0 of 0 people found the following review helpful. Well-doneBy paulfoneAll that I expected!5 of 5 people found the following review helpful. If you love to catch trout.....By Michael SonnenbergThis book is perhaps the best source of trout stream information I have come across. Most books of this type tend to tell you about their experiences on a particular stream, but this book offers you the opportunity to experience it for yourself. The book has been an incredible resource for me in finding smaller trout streams and lesser-known "hot-spots". BUY THIS BOOK! I can't stress this enough.

Book by Mehl, Janet D
