Smooth transaction, on-time delivery, nice bookBy U. Zak.Smooth transaction, on-time delivery, nice book. I recommend this book highly to everyone who would like to learn about Istanbul, Turks, Turkish culture and Ottoman Empire and its culture.

The critical and biographical introduction tells of Lady Wortley Montagu's travels through Europe to Turkey in 1716, where her husband had been appointed Ambassador. Her lively letters offer insights into the paradoxical freedoms conferred on Muslim women by the veil, the value of experimental work by Turkish doctors on inoculation, and the beauty of Arab poetry and culture. The ability to study another culture according to its own values and to see herself through the eyes of others makes Lady Mary one of the most fascinating of early travel writers and commentators

Her letters have an immediacy and vivacity that remains as fresh as the mosaics on the ancient monuments she saw and the eastern gardens that gave her such delight. Anita Desai From the Publisher Lady Mary Wortley Montagu (1689-1762) was described by a contemporary as "one of the most extraordinary shining characters in the world." Her letters, collected here, tell of her travels through Europe to Turkey in 1716, where her husband had been appointed Ambassador. Her liveliness makes them delightfully readable, and her singular intelligence provides us with insights that were exceptional for their time. Her ability to study another culture according to its own values, and to see herself through the eyes of others, makes Lady Mary one of the most fascinating and accomplished of early travel writers. About the Author Lady Mary Wortley Montagu's connections with poets such as Pope, Congreve and Addison and with Whig politicians through her father and husband provide a fascinating base for the correspondence.
