by the story of these two cats working hard to get to a new home with no GPS to guide them! Sweet snippets of their lives and those they encountered on their long walk. Ms. Selby is best known as a travel writer detailing her long solo bicycle journeys. She is a really interesting woman and writer. 1 of 1 people found the following review helpful. Bettina writes again! By Melissa Wilson I met Bettina Selby several years ago at a hostel in Arundel, UK. She is best known as a long tour cyclist and travel writer. After our meeting, I bought several of her books in the UK and came home to buy the rest. She is another in a long line of intrepid Englishwomen. *TWO CATS WALKING* is a departure since it is the cats that are doing the long tour. I quite enjoyed the book and have shared it with others. Cat lovers of all ages should really enjoy this book and the exploits they pursue.

Two cats escape while being taken to a new home and embark on a pilgrimage; an action packed journey full of surprising shifts and turns, hilariously and lyrically related by the two cats. The result is a timeless classic to be enjoyed at any age.
