Moon Canyon Publishing : U.S. National Forest Campground Guide: Camping Near Grand Teton and Yellowstone National Parks before purchasing it in order to gauge whether or not it would be worth my time, and all praised U.S. National Forest Campground Guide: Camping Near Grand Teton and Yellowstone National Parks:

Yellowstone and Grand Teton National Parks in northwest Wyoming protect unique natural wonders that are known worldwide. They are the vacation destination for thousands each week. An alternative to staying in either Park while still enjoying their attractions is discovering the camping opportunities available in one of the nearby National Forests.

Within 75 miles, there are 75 campgrounds in seven National Forests and three states that encircle Yellowstone and Grand Teton National Parks. Camping in National Forest campgrounds, which are less crowded than those in the Parks, can enhance your whole experience of this area. Whether you camp in a tent or a recreational vehicle (RV), there are campgrounds in U.S. National Forests to satisfy the needs of most campers. The U.S. National Forest Campground Guide - Camping Near Grand Teton and Yellowstone National Parks, describes such campgrounds. All of the campgrounds were personally visited and researched by the authors of this Guide. There are more than 50 items of information for each campground, narrative descriptions (including authors' anecdotes), maps displaying the relative location of the campgrounds, and quick look-up tables to help in the selection of a campground. In addition, there are sidebars throughout the Guide containing useful information about camping, the forests, things to do, and the authors' experiences.

About the AuthorThe authors, Fred and Suzanne (Suzi) Dow, are a husband-wife team researching developed campgrounds located in National Forests throughout the United States. Starting in May 1996, the authors set off from Burke, VA in their 23-foot travel trailer and became full-time RVers for almost three years. The authors now live in Bisbee, AZ for six months and are on the road the other six months a year visiting National Forests and researching campgrounds. As of September 8, 2003, the authors have visited 127 of the 157 National Forests and personally surveyed 1,882 campgrounds. They expect to complete their research during the year 2007. Suzi Dow, a former Army brat, spent a good bit of her youth traveling across the United States. Those early years of endless miles in the back of the family station-wagon were not enough. During the summer of 1976, she and her two children spent three months tent camping on a meander from coast to coast. This time produced some of her favorite memories. Just before starting work on this Guide, Suzi earned her Master's degree from George Mason University in Fairfax, VA. Now a resident of Bisbee, AZ, she enjoys her position as an Instructor at Cochise Community College, working on the latest edition of the Guides and getting acquainted with a stationary home, at least for six months of the year. Fred Dow was raised in Newton Center, MA and graduated from Western Kentucky University in Bowling Green, KY in January 1959. Following college, Fred spent over three years in the Army as a Military Police Officer stationed in Garmisch, Germany. After his discharge, Fred was employed by Aetna Life and Casualty as a claims representative in Richmond, VA and Washington, DC. Later, Fred was employed by two RD firms as the Director of Administration and Personnel in McLean, VA and Rockville, MD. During the summer of 1972, Fred started work for the U.S. Department of Housing and Urban Development (HUD) in Washington, DC, first as a program analyst, then fin
