Was expecting a book of images of Legendary Spaces of NYC, but the vast majority of the photos are of what the "Legendary Space" looks like now - most of the time they are high end clothes stores or million dollar plus apartments - BORING BORING Typically one very small photo of the Legendary Space when it was legendary - small and poor quality. Rest of space now. Not even text worth reading. Waste of money 0 of 0 people found the following review helpful. Great gift By Grace du Ciel This was a gift for a friend who loves visiting NYC. She's always looking for new places to discover in the city and she loved the book. 0 of 3 people found the following review helpful. Book shipped quickly - in time for gift giving. By KC Beautiful book - great price.

Captivating photographs from the present and the past take readers on a tour through New York City's most influential cultural spaces, reminding us of what made them legendary, and revealing what has replaced them. If you lived in New York City in the 1950s, '60s, '70s, or '80s, you were likely enchanted by a particular, legendary place. Late-night spots like the Copacabana, Studio 54, The Mudd Club, or The Roxy; music venues such as CBGBs and the Village Vanguard; cutting-edge performance spaces such as The Kitchen and St. Marks Church in the Bowery; social hangouts like the Gaslight Caf and Keith Harings Pop Shop. Many of these places are gone, but none are forgotten and all are brought thrillingly back to life in this gorgeously designed volume. Poignant, insightful texts and both archival and new photography take readers inside more than 40 historical locations to see what made them so beloved back in the day and reveal what they look like now. Each chapter includes background history of the space, as well as quotes from famous artists, musicians, and other key players of the time. Together, these words and pictures comprise a bittersweet elegy for the city's iconic spaces and show the continued relevance of New York as a hotbed for the creation of popular culture.
